## DETAILED ACTION

### *Remarks*

1. Applicant's election without traverse to claims 1-11 is acknowledged.

### *Examiner's Amendment*

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Leslie S. Szivos (Reg. No. 39,394) on Nov. 30, 2004.

3. The application has been amended as follows:

In claim 10, at line 2, replace the very last word "metal" into -- **liner** --.

**Cancel** non-elected claims **12-20**.

### *Allowable Subject Matter*

4. Claims 1-11 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The closest prior art of record, Hart et al. to US 2004/0029303, disclose using a controlled pore glass (CPG) material as a substrate (paragraph [0025]). However, none of the prior art teaches or suggests forming the controlled pore glass (CPG) as an interlayer *dielectric on a dense etch stop layer*, subjecting the CPG to thermal treatment to form a distinct *interpenetrating microstructure*, including a substantially pure *silicon dioxide network* and a

*boron-rich network*; and *selectively* removing the boron-rich network by *acid etching* to provide a *reticulated porous network* of substantially pure, *amorphous silicon dioxide*.

Therefore, the instant invention is neither anticipated nor rendered obvious over the prior art of record.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
